

~Weekly Agenda~

Topics:

- [January 4th, 2024](#)

January 4th, 2024

January 4th, 2024:

- . Dot product (scalar)

- Gives the length/magnitude

- . Cross product (vector)

- Normal
 - Bitangent

- . Quaternions

- Gimbal lock
 - When two axes represents the same axis and you lose one degree of freedom

- . Euler Angles

- . Homogeneous Coordinates

- . Rotation Matrices

- . Graphics Pipeline
- . Implement Ray Casting
- . Implement Graph Traversal
- . Deferred Rendering vs Forward Rendering

- Forward Rendering depends on the lights

HW:

- Get Unity Ready
- Why Quaternions doesn't have Gimbal lock and Euler does?
- Timecode and frame syncing
